

Invitation to participate as a Sponsor

About the conference

RiverFlow 2018, the 9th International Conference on Fluvial Hydraulics, will be held in Lyon & Villeurbanne, France, September 5-8, 2018. On behalf of the local organizing committee, it is our pleasure to invite your company to participate as a Sponsor of this event.

River Flow has become since 2002 a major international conference in river engineering and fluvial hydraulics. It is a unique occasion to present and discuss the latest scientific researches, and to communicate with scientists, engineers, and researchers involved in areas such as fluvial flow and structure processes or sediment transport. River Flow 2018 will focus on the latest findings in the field of fluvial hydraulics, addressing fundamental issues related to fluid processes of sediments and pollutants in rivers. More practical issues related to river morphodynamics, river restoration, and river interaction with structures will be discussed

The conference is organized under the auspices of the IAHR (International Association for Hydro-Environment Engineering and Research) and its Committee on Fluvial Hydraulics. The conference is co-organized by Irstea (National Research Institute of Science and Technology for Environment and Agriculture), INSA Lyon (Institut National des Sciences Appliquées, Université de Lyon), CNR (Compagnie Nationale du Rhône) and SHF (Société Hydrotechnique de France). Participation of about 300 delegates is expected. The conference venue is at Espace Tête d'Or congress center.

Peer-reviewed papers will be published in the form of an electronic book containing full papers, in collaboration with an internationally renowned scientific publisher.
